5 March 2019

art stakeholders meeting

art email list changes

- **art-stakeholders@fnal.gov** has been retired
    - Anyone on that list has been moved to art-users
    - Archives are still accessible

- **art-mt-forum@fnal.gov** will be retired this week
    - MT forum meetings have ceased, and all MT-related issues can be directed to art-users or artists.

- The *art* developers can still be reached at **artists@fnal.gov**, which now forwards to **scisoft-team@fnal.gov**.

🎸 Fermilab

art 3.02.02

- Will be tagged today
  - Addresses a problem with streaming of `art::Assns` products in multi-threaded environments.

- Restores `fhicl` Python extension module for Python 3
  - New dependency (`pybind11`)

- Updated cetbuildtools (7.12.01), which provides better support for `clang-tidy`
